For Officials (mainly Japanese) who involve in sending and receiving foreign workers

## JP-MIRAI Membership

We are working to improve the working and living environment for foreign workers through learning from and collaborating with those involved in sending and receiving foreign workers.

Number of Memberships (on Sep. 2024)

Organization/Personal

## How we started

In November 2020, JP-MIRAI was established as a voluntary organization by various stakeholders such as private companies, local governments, NPOs, academics, and lawyers led by JICA. JP-MIRAI aims at attacking various issues of migrant workers in Japan seriously, being "A Country of Choice" for migrant workers. In June, 2023, "General Incorporated Association JP-MIRAI" was established to expand its activities.

JP-MIRAI

Japan Platform for Migrant Workers towards Responsible and Inclusive Society

The objective of the "Japan Platform for Migrant Workers towards Responsible and Inclusive Society (JP-MIRAI)" is to promote inclusive economic growth and sustainable development of the society. By cooperating with stakeholders to protect the rights of migrant workers and improve their working and living conditions, we aim to accept migrant workers responsibly, making Japan a country of choice.

## **Information service for Migrant Workers**

Opinions exchange with foreign workers

## **Mutual Learning and Public communication**

#### JP-MIRAI Field Academy

## Study tour in Sending Countries

(for membership)

We conduct study tours in sending countries to promote understanding of the current situation and challenges in the process of recruiting young people to Japan. The program includes visits to sending institutions, opinion exchanges with students and trainees before/after their stay in Japan, and dialogues with relevant organizations.

Hearings at sending agencies, international organizations, etc.

Discussions with local officials on issues in sending and receiving human resources

#### **Mutual learning**

Networking and sharing of best practices among members

- Member forums (about twice a year)
- Activity reports by members
- Activity reports by members
  Web articles featuring good practices

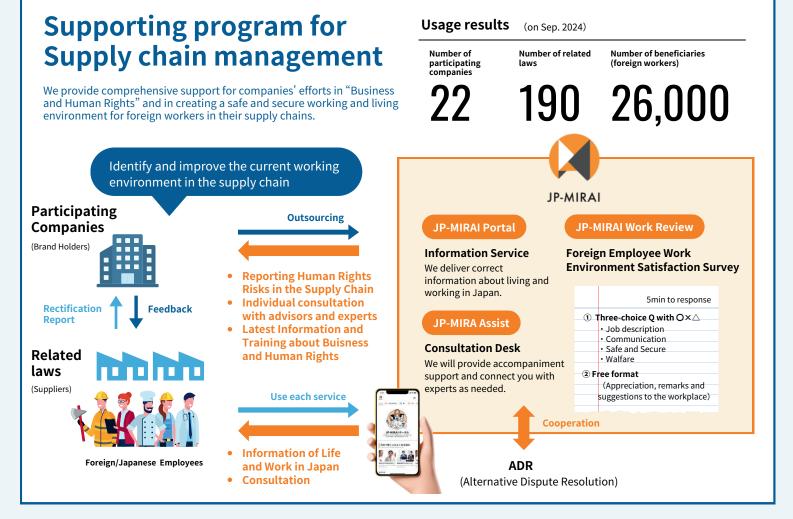

- Initiatives by local governments to secure and retain local talent
- Updates on the situation in each industry/country of origin
- Current topics such as legal amendments, etc.

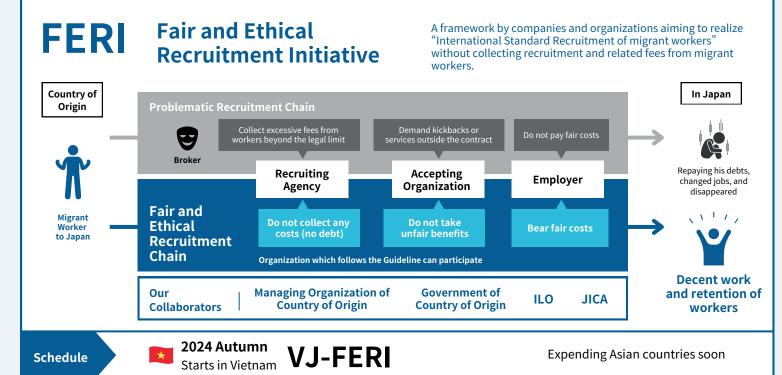

# Research and policy proposals in collaboration with government agencies

## **Collaboration in business and human rights**

#### **Training Materials for SMEs**

To support SMEs which is difficult to devote sufficient manpower, budget, and time to efforts to protect human rights, we provide videos that explain important codes of conduct based on international norms in an easy-to-understand manner with specific examples. It is scheduled to be operational around January 2025.

#### **Supporting Overseas SCM**

We support Japanese companies in managing their overseas supply chains in cooperation with international NGOs and UN agencies. We have cooperation agreements with Issara Institute, RBA, and IOM.
